

# Establishing the National & Regional GEP Websites & Databases for Members' Use & Benefits

Engr. James Dexter A. Grageda  
Geodetic Engineer - GIS/IT Specialist  
[dexter@grageda.com](mailto:dexter@grageda.com)  
0919-2456667

# Always Remember Us This Way

.... When the sun goes down

And the band won't play

I'll always remember us this way....

# Demo

qGIS Geocoding of addresses

# Benefits of Developing an Integrated Geoportal / Website for the GEP

- **Databases:**
  - **Members**
  - **National Laws, Department Administration Orders, Implementing Rules and Regulations (IRR)**
  - **Constitution, By-laws and Code of Ethics**
  - **Internal Policies, Procedures and Manuals**
  - **Minutes of Meetings, Memoranda and Resolutions**
  - **Events, Projects, Seminars and Conventions**
  - **Technology Trends**
  - **Videos on Events, Trainings, Equipment**
  - **Social Network**

# Benefits of Developing an Integrated Geoportal / Website for the GEP

- **Member's Database:**
  - Administrative / Logistics Purposes:
    - Active Member / Member with Good Standing
  - Competency / Assessment Purposes
    - Learning Outcomes or Competencies
    - Renewal of Licenses / Linkage with PRC
    - Training Module Design and Implementation
  - Earn Points or Discounts for Activities / Seminars / Convention;
  - Issuance of GEP Regional ID's;
  - Access to Information on GCPs and Benchmarks
  - Benefits / Claims

# Concerns / Issues

- **Data security:** prevent unauthorized access and changes to data.
- **Data sharing:** follow correct authorization protocol to share data.
  - Business Telephone Number & Address
- **Collaboration:** promote communication and collaboration within and other organizations.
  - Linkages with PRC
- **Data integrity:** data is recoverable, searchable, and connected.
  - Centralized and Distibuted Architecture

# Concerns / Issues

- **Automation:** repetitive tasks can increase work speed, efficiency, and accuracy.
  - Attendance on Convention / Issuance of IDs / Certificates
- **Data access:** internal and external users, including the public, have different access levels, to reduce the risk of data leaks, misuse, or identity theft.
